

CHILD SUPPORT WORKSHEET

The Child Support Worksheet is a two page form that can be easily worked by anyone with an advanced degree in mathematics. The rest of us including me, my staff, and the judges use the child support calculator that you can find at the following web address.

www.state.tn.us/humanserv/is/incomeshares.htm

If you try to do it by hand on a printed form, you will make errors. From my experience, the form at the Department of Human Services website contains errors but since everyone will be suffering from the same errors including the judges, the errors tend to cancel themselves out.
